IN presenting this catalog to the public we do so with much reluctance to part with so many cattle of the class we like to keep, but they were bought with this sale in view and we feel that we are really depriving ourselves of the cream of the importation when we catalog almost seventy-five per cent of the shipment. True, they are not in high condition, but they are in good condition. Hardly an animal of the lot ever seen grain. Almost every one of them was bought out of the pasture and had no preparation, and with the severe trip have put on but very little since they left the other side, as the trip has been a long and hard one.

We feel that we had the inside on the best herds in Britain and not a few exporters were refused cattle from these herds which we purchased from. In buying cattle in that country it is not a case of what you want but what they will let you have, but we feel fortunate in having a standing with these breeders and in more than one case we were able to secure their best cattle at prices which had been turned down and Mr. William Duthie had no hesitation in saying they are the best lot that ever left the country. We feel that this statement implies to merit and usefulness rather than to fitness.

Those in position to know tell us that we are making a mistake not to keep the cattle till they are in sale condition, but we are not in a position to do so conveniently, and what is the use since they are in as good condition as they ought to be and as good as the breeder wants them, although we know they would bring more money if fatter.

These cattle were selected with a view of the results they might produce in a breeding herd. Almost every one of them is perfect in conformation and general outline and the pedigrees are good, although this was a secondary idea.

All of the females seem to be in calf except a few of the heifers that were not bred before they left Scotland.

We extend a cordial invitation to you to come to this sale to see such cattle as we have described and cattle that will prove moneymakers for the buyers.

Guarantee: All females of breeding age are bred and those having passed over six weeks are guaranteed breeders.

English certificates of registry will be furnished with each lot sold, but we will leave it to the purchaser to record them in the American book, as there are so many young animals that might die or not prove breeders consequently the \$100.00 fee would be lost, and we ask you to buy them this much cheaper and pay it to the association when you want to have the American certificate of Registry. All other fees have been paid. It is also well to note that if these animals are exhibited at a state or national show and win a ribbon within twelve months the \$100.00 fee will be refunded. A move is also under way to exempt the dam of any calf she may have recorded from the \$100.00 fee. In other words, the cow and calf can be recorded for one fee if the rule goes into effect.

All stock will be loaded free and with care, but will be at owner's risk as soon as bid off.

Terms cash or a credit of six months at six per cent on bankable paper.

Very respectfully,

CARPENTER & ROSS.

This is perhaps the best bull of his age we saw in Britain. He was in much better condition then and won wherever shown, getting fourth at the Royal, but was a much better bull than the first prize winner for the American breeder. He is a hard bull to equal in any company.

This is a beautiful dark roan; has a magnificent coat; was the choice of several bulls of his age at Bapton Manor. His dam is a nice dark roan which we considered about the choice cow in the Willis herd. We had selected this bull with the expectation of retaining him for service in our herd, but have concluded to part with him in order to make the offering more attractive.
